

HCL Placement Papers

Paper Type : Whole Testpaper
Test Date : 14 August 2007
Test Location : HCL centre noida

We were called by the hcl technologies for recruitment in their office only.
The written paper consisted of 2 sections 1-aptitude 2-branch specific.
Apti paper was damn easy.there were 60 questions to be done in 55 minutes.no special practice required 4 hrs.

Keep ur eyes open mind alert and check on the time.thats it

Some of the questions were:-

1 if $a+b$ means a is son of b and $a-b$ means a is daughter of b and $a*b$ means a is wife of b then $p+q-r*t$. what is the relation between p&t?

2 english Rc.very easy one.4 passages having 10 questions.

3 flow chart questions.there were 6 questions on flow chart.

4 pie chart question.That is the di section.u dont even need to use ur pencil 4 solving it

5 some technical questions like how s virtual memory implemented-demand paging

1) question was on article whose options were a, a & a, the & the, a & the, the.the answer was the,the two meaning question were there whose answers were mass killing and formal statement.

Analogy question were there like:-

(analogy:bmbkpfz) and 4 options were given the relations 4 analogies were quite simple as u can see.

Number series were given like 122433566412864278 and questions were asked like how many consecutive even number pairs

Are there whose sum is a single digit i.e. ≥ 9 ;

All the questions were easy.jst keep the check on the time

The second test was branch specific.each 4 computer, it and of vlsi 4 electronics students if they want to be

vlsi specialists.

mine was computer test.it was a little bit tricky but surely not difficult.

there were 25 questions to be done in 20 minutes

Questions were on c and c++ only.some of the questions i could recall were

1-what is the position of partition item in quick sort ansis statrtin(first)

The new malloc calloc allocate memory 4m heap

One question was on virtual base class in c++.type of error was asked but there was no error

One question on 2d array.

Some questions on c programs.one was insertion sort

One on binary search tree

One question on the preorder sequencing of b tree.i.e 1st visit root then visit left subtree in preorder

Again u need to keep a check on time here also.

Thn finally thr was HR round

Same questions wer asked 4m each student and those wer vry vry general.

The questions wer 1-tell about urself 2-about family 3-why hcl? 4-academics trend i.e if ur % is decreasing thn why is it so

and if its increasing thn will u b able keep it like tht?

It dint last 4 mre thn 10 minutes.
